Subject: Question about Swinomish subaward

Hi Rachel and Tom,

I am not sure who best to ask while (b) (6) , but could you please confirm whether or not the photographs used in the Swinomish subaward website or ads were stock photos or not? If they were stock, would you be able to confirm that they were not charged to the subaward? And if they were not stock but rather created as part of the project, would you be able to tell us if they were charged to the subaward?

We are asking these questions because they relate to the question Tom raised with me by phone last week on 4/28. As a quick recap for Rachel, in that conversation, Tom indicated that the Swinomish tribe said to NWIFC that they would like to use their own funding to continue the billboard campaign as soon as this week and wanted to know whether the EPA logo had to be displayed.

Thank you,

Lisa
